ionic 对话框

$ionicPopup

ionic 对话框服务允许程序创建、显示弹出窗口。

$ionicPopup 提供了3个方法：alert(), prompt(),以及 confirm() 。

实例

HTML 代码

```
<body class="padding" ng-controller="PopupCtrl">
    <button class="button button-dark" ng-click="showPopup()">
      弹窗显示
    </button>
    <button class="button button-primary" ng-click="showConfirm()">
      确认对话框
    </button>
    <button class="button button-positive" ng-click="showAlert()">
      警告框
    </button>

    <script id="popup-template.html" type="text/ng-template">
      <input ng-model="data.wifi" type="text" placeholder="Password">
    </script>
</body>
```

JavaScript 代码

```
angular.module('mySuperApp', ['ionic'])
.controller('PopupCtrl',function($scope, $ionicPopup, $timeout) {

 // Triggered on a button click, or some other target
 $scope.showPopup = function() {
   $scope.data = {}

   // 自定义弹窗
   var myPopup = $ionicPopup.show({
     template: '<input type="password" ng-model="data.wifi">',
     title: 'Enter Wi-Fi Password',
     subTitle: 'Please use normal things',
     scope: $scope,
     buttons: [
       { text: 'Cancel' },
```

```
          {
            text: '<b>Save</b>',
            type: 'button-positive',
            onTap: function(e) {
              if (!$scope.data.wifi) {
                // 不允许用户关闭，除非输入 wifi 密码
                e.preventDefault();
              } else {
                return $scope.data.wifi;
              }
            }
          },
        ]
    });
    myPopup.then(function(res) {
      console.log('Tapped!', res);
    });
    $timeout(function() {
       myPopup.close(); // 3秒后关闭弹窗
    }, 3000);
  };
  //  confirm 对话框
  $scope.showConfirm = function() {
    var confirmPopup = $ionicPopup.confirm({
      title: 'Consume Ice Cream',
      template: 'Are you sure you want to eat this ice cream?'
    });
    confirmPopup.then(function(res) {
      if(res) {
        console.log('You are sure');
      } else {
        console.log('You are not sure');
      }
    });
  };

  //  alert（警告） 对话框
  $scope.showAlert = function() {
    var alertPopup = $ionicPopup.alert({
      title: 'Don\'t eat that!',
      template: 'It might taste good'
    });
    alertPopup.then(function(res) {
      console.log('Thank you for not eating my delicious ice cream cone');
    });
  };
});
```
